

OUR COMMITMENT *to you!*

Welcome to **Loogootee High School!** We believe that as educators, we are given an amazing opportunity to impact the future by meeting each and every student exactly where they are at and taking them as far as we can. It is our responsibility to set high expectations, ensure student safety, and provide a positive learning environment. We believe in working hard, and it shows by how our students excel in academics, fine and performing arts, and athletics. We are committed to excellence and the success of all students!

Thank you for taking the time to visit our website. We have many new and exciting initiatives for the 16-17 school year including...

- ***Blended Learning*** - Each student in grades 9-12 is provided with a chromebook as a part of our technology integration effort which will allow the learning opportunities for our students to reach outside our classroom walls and around the world!
- ***Jasper Engines*** - LHS has partnered with Direct Employers Foundation, Indiana University, and Jasper Engines to bring an actual Jasper Engines lab into our school where our students have the opportunity to learn from and work with skilled Jasper Engines employees while gaining real-world experiences!
- ***Dual Credits*** - We know our students' futures begin today and that is why we partner with Indiana University, IVY Tech, Oakland City University, and Vincennes University to offer our students a total of **77 college credits!**

It is with great pride we serve our students, families, and community.

Andrea Huff, Principal
